Why choose HAYLEY DEXIS for your fasteners?

Availability

With millions of industry standard fastener products in stock, we're confident we have the product you need, when you need it.

Product Matching

Our staff can match your requirements based upon drawings, samples or specifications.

Stock Management

We have a variety of stock management options to ensure that you have access to the products you need to keep your business operational.

Manufacture

Where a standard fastener product cannot be sourced, we work closely with our manufacturing partners to create a product to your exact specifications. This ensures batch traceability, certificates of conformity and material certification.

Technical Support

Our branches are backed up by a dedicated fastener technical support team, with decades of knowledge within the fastener industry. Ensuring we can answer your queries swiftly and accurately.
